RMB440642

**Location:** Meryla Road, Moss Vale. 7 kms from Moss Vale Post Office. Take the Illawarra H'way from Moss Vale to Wollongong, turn right into Nowra Road, right into Yarrowa, then 1st left into Meryla Road.

**Information:** Since 2000 we have used American genetics to give a wide variety of bloodlines. Over many generations we have enhanced both the spring and autumn calving groups.

Our bulls are offered for private sale throughout the year. These bulls are semen tested, foot & structure assessed and parent verified.

All bulls have been tested for PV and are up to date in vaccinations - 7 in 1, vibrio & pestigard.

We are happy to help match the best bull for your herds needs - heifer bulls, maternal bulls and growth bulls are available. They are ready to work.

This year for Beef Week we will have PTIC heifers for sale together with cows with calf at foot. We will be happy to show you our herd.

Our cattle have wonderful temperament, easy to handle, good footed and... have traits that give good growth and carcass. They have EBV's to support their good looks!

Just give us a call.
